This company continues to take on new challenges, incorporating the community in many ways as a vital arts organization in the North East Bay community. BBT offers live theater productions, dance scholarships, arts education programs, an annual **Nutcracker** season and **Spring Production**. BBT is proud of its collaboration with the **Solano Community College Music Department**, summer programs for all ages, and a modern/contemporary performance group.

It is the great support we receive from the community that allows BBT to continue to develop. This particular program has been recognized by the **Arts and Cultural Commission** of the **City of Benicia**. Please join us in this exciting endeavor.
